BUSINESS CONTEXT

This document outlines the internal rules, procedures and work process guidelines for Engineering Albania. All the defined rules here are subsidiary to the Labour Law of Albania and other relevant legislation of the country.

This Internal Rulebook will be regularly updated to reflect changes in business conditions, such as having physical office in Tirana or local IT support, which would imply policies on hybrid work, time-tracking and similar. These regulations will be devised in a timely manner and added to this document accordingly.

SCOPE OF APPLICATION

This Rulebook applies to all employees of Engineering Albania.

GENERAL RULES, PROCEDURES & PROCESSES

1.1 BUSINESS CONDUCT

1.1.1 RULES OF ENGAGEMENT

At Engineering Albania each employee is expected to:

- Treat all other employees, managers and guests of the company with dignity, respect and common decency.
- Starting from themselves, work towards creating a work environment of mutual respect, cooperation, openness and equality.
- All types of insults and demeaning behavior toward other employees are forbidden and will be subject to appropriate disciplinary action.

1.1.2 COMPANY BEHAVIORS

Additionally, Engineering Group has adopted the set of behaviors expected of all of its employees:

Think bold (*Being ambitious and challenging ourselves to have more impact, bringing creativity to solve our greatest challenges, not ignoring the small things, not pursuing pet projects that don't align with our strategy*)

Talk straight (*Saying what needs to be said to move us forward, not wasting time on the wrong things, learn to give and receive constructive feedback, not blaming and criticizing others*)

Own it (*Taking things forward, even when it's hard, finding ways to improve how we do things, taking personal responsibility, make each other better, not always doing it alone, not hiding bad news*)

Make each other better (*Using each others' expertise across the business, taking every opportunity to grow talent – in our teams, with our peers and across the business, being open to learning, being inclusive of different types of people to get to the best answer, not bringing everyone into the room for the sake of it*)

More information can be found on Company Intranet: Engage.

1.1.3 USE & MAINTENANCE OF COMPANY EQUIPMENT AND PROPERTY

All employees are obliged to apply due diligence when using or handling equipment they have been assigned by the Company. This includes all of the technical equipment (computers, monitors, keyboard, headphones, and other similar equipment).

In case of computer equipment, employees should look to use them exclusively for work related activities. Also, employees should take care of their assigned equipment.

Any damage that occurs and is determined to have occurred by the fault of the employee will be reimbursed by the employee. Therefore, the Company insists that all employees handle all equipment with the utmost care.

To avoid accidental damage to the equipment, employees should take note that it is strictly forbidden to eat and drink next to assigned equipment / workstation.

CORPORATE SYSTEMS, PLATFORMS AND APPLICATIONS

1.2 RAS PROCEDURES AND DEADLINES

RAS is a monthly activity report system that all employees are required to independently fill out on a monthly basis. RAS application is installed on your company laptop during the laptop configuration. During the onboarding process, there is a standard internal training on how to use this system, as it has to be both timely and in orderly fashion, using the coding for activities adequately. RAS platform is under the *siiweb.eng.it* umbrella.

RAS will be compiled **two time for the current month** in the following manner:

- **First / Provisional RAS** must be compiled and registered **5 workdays before the final workday** of the current month.
This RAS report will contain the actual situation up to the day of compilation of the provisional RAS, and the anticipated activities and costs up to the end of the current month
- **Final RAS** must be compiled and registered **when the month ends** and will contain activities and absences for the entire month to which the RAS pertains to.
Changes that have occurred in the time between the registration of the Provisional RAS must be entered into the Final RAS.

Other than daily activities, employees must insert **all additional costs that have occurred during the month a RAS report pertains to.**

Employees should take care while compiling their RAS reports, as to not insert wrong data, especially with phases of activity, cost centers, company contract codes and percentual declaration of their activities – the total daily activity must be declared as 100%

Essential part of the compilation of RAS reports is the timely and correct reporting/requesting of categories of absences via the Absence Module on *siiweb.eng.it*.

ADMINISTRATIVE PROCEDURE

1.3 SCHEDULE AND REQUESTING ANNUAL PAID LEAVE

All employees are required to share their holiday plans with their functional leads, to make sure to take their paid leave in times that do not conflict with deadlines or congested work schedules.

The holiday plan should be shared directly with their functional lead and line manager.

Once this plan is aligned, the employee is required to formally request this allowed period of leave via the absence's module on *siiweb.eng.it* and with the same **module inform the HR department about their requested annual leave. It is required to put HR Administrator and functional line manager in the cc of this request, at the bottom of the page.**

For this specific category of absence, the employee should use **Phase 41 – Absence for holidays.**

Specifics of this type of leave

- Employees can request **full (8 hours),**

- When first using annual leave, days earned during the current year, employees are **recommended** to use the first part of their annual paid leave **in a period of at least 5 days. This leave must be utilized by the 31st of March of the following year.**

In the “*Notes of the applicant*” field, on the Insert request form on siiweb, employee must write a brief description of the situation related to this type of absence.

Persons, other than the direct responsible, that have to be notified via the Absences form:
HR.Albania@eng.it and line manager.

1.4 REPORTING SICK LEAVE AND SUBMISSION OF REMITTANCES

1.4.1 REPORTING THE START OF SICK LEAVE

All employees are required to report the start of a period sick leave to both their Line Manager and to the HR department.

Notice should be sent as soon as possible once the employee realizes he/she will not be in the condition to conduct daily work-related duties, on the day that sick leave starts.

Mandatory e-mail template:

Subject: Notice about sick leave – START – Name & Surname – DD/MM/YYYY

To: Line Manager;

Cc: hr.albania@eng.it

Body:

Dear,

I would like to inform you that I will be absent from work starting on **DD/MM/YYYY**. The reason for this absence is sickness.

Brief description of the issue:

Best regards,

Signature

An employee that reports their sick leave should make a visit to their family doctor or Company doctor. Eng Albania has its Company doctor available to all employees within Wellness Albania. HR Administrator can confirm the contact details. Resulting medical report must be sent directly to the employer via e-Albania. In exceptional cases where the e-Albania system is unavailable, the report may be emailed as a PDF attachment.

An employee that has children can use sick leave in case of the sickness of their child that is younger than 18 years. In this case it is required to submit the above medical report relating to the sickness of their child.

1.4.2 REPORTING THE END OF SICK LEAVE

Upon returning from sick leave that was orderly reported, the employee is required to inform both his Line Manager and the HR department about the end of the period of sick leave. Medical certificate (it is issued electronically through e-Albania portal but in some cases, it may be issued also in paper form) must be submitted

This can be accomplished by **inserting the period of sick leave into the Absence Module** on siiweb.eng.it.

For this specific category of absence, the employee should use **Phase 44 – Sick Leave**.

Specifics of this type of absence:

This category of absence can be reported retroactively but it has to be 8 hours minimum. HR Administrator must be notified via the Absences form sent to: HR.Albania@eng.it.

1.4.3 SUBMISSION OF REMITTANCES

All employees that report they are taking a period of sick leave **longer than 2 days must submit** their Confirmation of temporary inability to work hereinafter referred to as Remittance, as soon as possible.

As long as a medical report is submitted to the employer within the predefined and agreed timelines on e- Albania, any absence, whether less than or more than two days, will be considered justified and will be compensated at 80%.

Submission of remittances/medical documentation is done by two methods.

1. Employees can scan or photograph the remittance and send it via e-mail before he returns to work. The e-mail with the remittance must be sent to hr.albania@eng.it.
2. Employee is obligated to submit to the HR Department the original remittance/medical documentation once he returns to work. Note that this is also required if the remittance has been previously sent via e-mail.

Orderly submission of remittances is necessary to allow the administration to justify all sick leave absences. Please note that sick leave without a submitted remittance/medical documentation will be considered unjustified. As such these absences will firstly be deducted from the available annual leave days, and lastly if no annual leave days remain, they will be deducted from the monthly salary. Because of this all employees should look to be disciplined in submitting their remittances.

- Rules for the submission of remittances equally apply to both the sickness of the employee or the sickness of their children.

If sick leave occurs during the days at the end of one and the beginning of another month, employees have to acquire and submit two remittances:

- Firstly, for the period of sick leave during the first month.
- Second for the period of the following month.

Documented sick leave will be paid at 80% of contractual salary level.

Failure to adhere to the specified notification timeframe, absence without notifying Human resources as per above, without valid justification, and failure to provide medical reports within the designated timeframe will be considered as

unexcused absences without the right for payment. The employee will receive a written warning. In cases of repeated offenses, the employer reserves the right to terminate the contract immediately for justified reasons.
