## CONTEXT AND PURPOSE

Eng Serbia has managed to provide spacious and highly functional office space for all its employees, their business guests and colleagues from abroad. To foster a balance between flexibility and the value of in-person collaboration, starting from January 2026, employees are strongly suggested to work from the office for at least two days per week. This policy will help us strengthen teamwork, spark creativity, and reinforce our shared sense of purpose.

---

## TECHNICAL ASPECTS

- It is the ultimate responsibility and decision of respective Technical/Operations Managers and our Senior Technical Manager Eng Serbia to organise office presence for themselves and for their teams.
- For employees who live outside of Belgrade (outside the reach of city bus zone), weekly frequency of coming to office may be altered.
- Employees living more than 100km from Belgrade would be expected to come to the office for a specific business need only (e.g important team meetings, guests from other Eng organisations, project work e.g. turnkey initiative and similar), to make their travel more meaningful and pointed.
- All colleagues who happen to be in-between projects (on the bench) will be required to work from the Belgrade office minimum three days a week.
- As a general rule, all new hires would be expected to come to the office during the first month of their onboarding
- From an HR perspective, all employees coming to the office will get increased meal allowance for those days; this practice will start from 2026 and we will inform all about its details accordingly;

## OFFICE ATTENDANCE & WORKSPACE ACCESS

### Access Points & Emergency Exits

For security and access control reasons, all employees must use the official office entrance on the mezzanine level. This entrance is reached via the main BIGZ building reception, where access control gates (card barriers) are located. The convention on entry point is very important, also because our office has a number of emergency exits, located in various spots and we must have control of office presence.

- All entries and exits must be conducted exclusively through the mezzanine entrance.
- All other doors within the office are classified as emergency exits only and are not to be used by employees unless emergency occurs
- Emergency exits may be used solely in the event of an evacuation or certified emergency.

Use of emergency exits outside emergency situations is strictly prohibited and may trigger building security alarms.

### Access Control and Entry Cards

- Every employee must use a personal, individually assigned entry card. Allocation and numbering of cards is handled by IT (Raško Popović, Teodor Bilak), with support from Bojana Popadić.

- Visitors may receive temporary access cards, which must be returned at the end of the visit.
- Employees hosting visitors must greet them at the building entrance and accompany them to the office.

## **Parking**

### **Company Reserved Parking**

Company has very few dedicated parking places. We are looking into the opportunities to make at least some of them pool parking, but this remains to be confirmed.

### **Public Parking Around BIGZ**

Public parking options in the vicinity of BIGZ are several and availability may vary during the day. In general, employees can:

- use public transportation,
- walk from nearby central areas including paid parking at Belgrade Waterfront
- or use taxi/ride-hailing services.

Parking outside the company's assigned spaces is subject to general BIGZ building and city parking rules.

---

## **Reservation of Workstations (Desk Booking)**

We have introduced desk reservation system; it is meant to be managed through the **Eng internal system Planet**, which allows us to track office attendance and maintain efficient workspace capacity planning. There is a document separate to this one, with more technical details on how to use it, but to confirm:

Our office includes:

- 82 workstations on the ground floor,
- 16 workstations on the mezzanine,
- Total available capacity of seats to be booked through Planet system: 98 workstations

This number does not include designated areas reserved for HR and Admin teams and IT support, which will remain outside of Planet booking system.

Our Eng guests can use the same system for desk booking, if needed, as it is company tool, available on Engage intranet and our Belgrade location can be chosen.

Each reserved workstation automatically will include a locker with the matching desk number.

Employees are expected to:

- Reserve their workstation in advance before coming to the office
- Use only the workstation assigned to them in the system
- Empty the assigned locker once the reservation expires
- Leave keys in the locker after use
- Avoid using lockers for long-term storage of personal items

## Meeting Rooms and Hospitality Refreshments

Our Eng Serbia office provides three meeting rooms and one phone booth, available for reservation through the internal booking system. All rooms must be left clean and orderly after use.

### Meeting Rooms – Capacity Overview

1. Meeting Room 1 (Mezzanine): capacity: 8 people
2. Meeting Room 2 (Ground Floor): capacity: 10 people
3. Conference Room Event (Ground floor)
  - Total capacity: up to 40 people (currently equipped with 20 chairs)
  - Suitable for larger meetings, workshops, training sessions and presentations
4. Phone booth (Ground floor)

The designated contact person for meeting room coordination and hospitality support is **Bojana Popadić, Back Office Coordinator**.

---

### Pet Policy (Non–Pet Friendly Office)

To maintain safety, hygiene and a professional working atmosphere, pets are not permitted inside the office premises.

Exceptions may be granted only for certified service animals, subject to prior approval from HR/Management.

---

### GENERAL OFFICE CLEANLINESS & ETIQUETTE

- Workstations must be left clean and free of personal items at the end of the day (hot-desk model).
- Any spills or crumbs should be cleaned immediately.
- Shared areas should be left organized and ready for colleagues who use them next.

### Kitchen & Dining Area (Mezzanine)

The mezzanine kitchen and dining area are designated for meal preparation and consumption.

### Usage Rules

Allowed:

- Preparing meals (heating, cutting, serving)
- Eating exclusively in the kitchen or dining space
- Using available appliances, utensils and equipment

Employees are expected to:

- Place dishes in the dishwasher
- If the dishwasher is running, leave dishes neatly in the sink
- Clean surfaces immediately after use

Leaving used dishes, packaging or food residue on counters is not allowed.

### ***Refrigerator – Mezzanine***

The refrigerator is intended for short-term storage of personal meals and beverages.

- The fridge is emptied every Friday afternoon.
- All personal items must be clearly labeled (name or initials), especially if they are not meant to be discarded.
- Unlabeled or expired items will be removed.
- Any spills must be wiped immediately.

### ***Cups, Mugs & Glassware – Mezzanine***

- All cups, mugs and glasses must be returned to the mezzanine **kitchen** after use.
- Items may be placed in the dishwasher or sink depending on availability.
- Cups must not be left on desks or around the office at the end of the day.

---

## **Refreshment Area (Ground Floor – Open Space)**

The Refreshment Area is intended exclusively for preparing beverages (coffee, tea, water). This space is not equipped for food preparation. Instructions for usage of coffee machine are on the very machine.

### **Usage Rules**

Allowed:

- Preparing hot and cold beverages
- Using appliances available in this area
- Short beverage breaks

Not allowed:

- Bringing plates, cutlery or dishes from the mezzanine kitchen
- Preparing or consuming food
- Leaving cups or containers outside the designated counter area

### ***Refrigerator – Refreshment Area***

- This fridge is **emptied every Friday**.
- All personal items must be labeled.
- Unlabeled items will be removed.

### ***Cups, Mugs & Glassware – Refreshment Area***

- All cups and mugs used in the Refreshment Area must be placed on the designated counter/tray.
- They may not be left on workstations, desks or open-space surfaces.
- Cups and mugs must not be stored anywhere outside the designated Refreshment Area counter.

---

## **Smoking Policy**

Smoking is strictly prohibited in all indoor office areas, including the mezzanine, open-space areas, meeting rooms, phone booths, kitchen, Refreshment Area and hallways.

Designated smoking areas are:

- In front of the main entrance of the BIGZ building
- BIGZ restaurant on the 9th floor, where smoking is allowed in accordance with restaurant rules

Access to the restaurant is via the elevators located near the main reception, beyond the access-control gates.

Employees are kindly asked to smoke only in designated areas and respect building policies.

**This is a working document and will keep being updated on a regular basis.**
