ADMINISTRATIVE PROCEDURE

1. REQUESTING A DAY OF ANNUAL LEAVE

To use annual leave, employees must first request approval for the use of annual leave days from their project team leader/coordinator to ensure the leave period does not overlap with planned deadlines or periods of increased workload.

This request should be sent via email directly to the team leader/coordinator, with the local technical leader copied in the correspondence.

Once the request has been approved by the team leader/coordinator, the employee must formally submit the leave period request through the "Leave Module" on siiweb.eng.it and inform the HR department of the requested leave period through the same module.

For this specific category of leave, the employee must use **Phase 41 – Absence for holidays**.

Specifics of this type of leave:

- only **full days** of annual leave can be requested.

In the "**Notes of the applicant**" field on the "Submit Request" form on siiweb, the employee must provide a brief description of the situation related to the requested leave type.

Individuals who, in addition to the directly responsible person, must be informed through the leave request form in the system:

K93 – Dimitrije Vukotic – dimitrije.vukotic@eng.it

K539 – Tina Mihailovic – tina.mihailovic@eng.it

2. REPORTING SICK LEAVE AND SUBMISSION OF REMITTANCES

2.1. REPORTING THE START OF SICK LEAVE

All employees are obliged to report the start of their sick leave period to their project team leader/coordinator, local line manager, and HR department.

The report should be sent as soon as possible after the employee realizes they will not be able to perform daily work activities.

Mandatory email template:

Subject: NOTICE OF SICK LEAVE ABSENCE – START – Name & Surname – DD/MM/YYYY

To: name of project team leader, name of local line manager or team leader; illnessbelgrade@eng.it

Body:

Dear,

I would like to inform you that I will be absent from work starting on

DD/MM/YYYY. The reason for this absence is sickness.

Brief description of the issue:

Best regards,

Signature

Employees reporting sick leave should visit their doctor as soon as possible to obtain the **"Certificate of Temporary Incapacity for Work"** (Form ZOR-X), or other medical documentation confirming the onset of temporary incapacity for work, as soon as possible.

Employees with children may also open sick leave in case of illness of a child younger than 18 years. In this case, it is necessary to submit a medical certificate for the child's illness.

2.2. REPORTING THE END OF SICK LEAVE

Upon returning from sick leave whose start was properly reported, the employee is obliged to notify their team leader/coordinator, direct supervisor, and HR department about their return to work.

This can be done by entering the sick leave period in the "Leave Module" on siiweb.eng.it.

For this specific category of absence, the employee must use **Phase 44 – Sick Leave**.

Specifics of this type of absence:

- This category of absence can be reported retroactively.
- It can be reported in hours/partial daily working time.
 - a) If the sick leave covers part of one day and a period of full working days, it must be reported with two separate requests in the leave module..
- It can be used for other types of health-related absences (in this case, it must be partial) – it can be used once every 2 weeks – in the following cases:
 - a) Medical and systematic check-ups
 - b) Dentist visits
 - c) Family emergencies
 - If it is not an emergency, these partial daily absences must be reported in advance.

In the "**Notes of the applicant**" field on the "Submit Request" form on siiweb, the employee must write a brief description of the situation related to the requested type of absence.

Persons who, in addition to the directly responsible person, must be notified through the leave request form in the system:

K93 – Dimitrije Vukotic – dimitrije.vukotic@eng.it

K539 – Tina Mihailovic – tina.mihailovic@eng.it

2.3.SUBMISSION OF REMITTANCES

All employees who report a sick leave period longer than 2 days are obliged to submit as soon as possible the **"Report of Temporary Incapacity for Work" FORM OZ-6** – medical certificates follow below.

Employees who report a sick leave period of up to 2 days must submit any other form of medical documentation that confirms the period of incapacity for work.

Submission of medical certificates/documentation is carried out through two methods:

1. Certificates upon closing sick leave

Certificates are strictly confidential personal documents and must be delivered exclusively to Tina Mihailovic, cc Dimitrije Vukotic and/or by sending to the email address illnessbelgrade@eng.it.

No one is allowed to share these documents with their line managers or anyone else in our organization; this is a serious violation of the confidentiality of personal data and does not depend on our goodwill to share these documents with more colleagues.

2. The employee is obliged to submit the original medical certificate/documentation to the HR department upon returning to work. Prior to that, the documentation must be sent via email.

Proper submission of medical certificates is necessary to allow the administration to justify and calculate all sick leaves. It should be kept in mind that sick leaves without submitted certificates or other medical documentation will be considered unexcused absences. As such, these absences will primarily be deducted from available annual leave days, and if those days are not available, the absence will be deducted from salary. For this reason, employees should be disciplined in submitting medical certificates. The rules for submitting medical certificates apply equally to submitting certificates due to illness of a child.

If sick leave spans days at the end of one month and the beginning of the next, the employee must obtain and submit two certificates:

- The first for the sick leave period covering the end of the first month.
- The second for the sick leave period covers the beginning of the next month.

3. REQUESTING PAID ABSENCES DUE TO EDUCATIONAL OBLIGATIONS

This type of absence can be used by employees who are in the process of completing their formal professional education. Specifically, for obligations related to such education, like exams and administrative duties requiring the employee's presence. Absence due to additional education outside this profile must be regulated by the employee in another way.

Before formally requesting this type of absence, the employee must first obtain approval from their project team leader/local line manager or team lead.

After approval from the team leader/coordinator, the employee must formally request approval for this type of absence via the absence module on siiweb.eng.it.

For this specific category of absence, the employee must use **Phase 49**:

- **"Permission for exams" subphase – Maximum of one full working day in case of exams.**

At the beginning of the following month, if there were deviations from the plan or changes occurred (e.g., a different type of activity, additional days of leave, etc.), employees are required to update the RAS to reflect the actual state for the entire previous month.

In addition to regular activities, employees **must include any additional costs** incurred during the month (business trips, etc.) in the RAS.

- It is essential to carefully complete the RAS, especially regarding:
 - activity phases,
 - cost centers,
 - contracts,

Furthermore, an integral part of the RAS is the proper prior recording of absences.
